

Creative and unusual shaped ice cubes

Show: □ Dec. 12th

Ingredients:

Several Rubberized dessert molds or ice cube trays.

Orange Juice

Cranberry Juice

Apple Juice

1 jar Pitted Maraschino Cherries or

Dried Cranberries

Procedure:

Have a variety of containers handy. Fill each container (mold or tray) with the juice you have selected for that item. Leave enough room to allow for the added fruit. Add one piece of fruit to each mold or section of ice tray. Place in freezer. Keep frozen until ready to use. Using these in punch drinks or children's various drinks, keeps the drink from diluting when the ice melts.
