

### Tostadas

Show:Feb 20th

---

Ingredients:Serves 1

Cooking Oil  
1 Corn Tortilla  
Salt to taste

**Procedure:**

Add 1/2 inch cooking oil to a skillet that has been heated to medium heat. Place the corn tortilla in and cook for about 1 minute, turn and cook on that side for another minute. Remove. To make a bowl out of the tortilla and create a nice container for the tostada, simply drape the still soft tortilla over an inverted bowl and leave to stiffen in that shape. To keep it warm while making more, place in a 200°F oven.
